

Internet Snooping: Why do you want to start this game? What ever you can come up with someone will defeat it. why even go there. I do not want the USA to become a POLICE STATE, and that is what will have to happen to be "Fully Safe". Come on guys, I for one do not want to give up my liberty for some temporary safety. This is same game you can play with Guns. Band Guns and only the bad people will have them. Don't snoop my IP connections. Thanks
